Subject: Call Thurs. 2/6 @ 2:30 and other

1) **Call Next Thursday:** ISO-NE and NESCOE's outside counsel (Miller Balis O'Neil) are available to be on a call **next Thursday Feb 6th at 2:30. 404-920-6777 Code: 54 79 3643#** (There is a Markets Committee meeting that day, so a few people may need to miss the call or step out of MC) The purpose of this call will be to discuss the viability of 1) the rebundling approach to transmission development (what had been called deliverability, which is not really accurate) and 2) the NH/VT gas proposal. Well before then, you will have short memos from Miller Balis assessing legal viability of each. ISO will offer its view verbally, I believe, and you will have a discussion opportunity if you wish before you convene on Feb. 14th.

2) **Material:** We will distribute some follow-up material from your last meeting Friday. We'll distribute the balance (draft RFPs) early next week. The RFPs present basic directional questions that you may want to talk about before dedicating significant lawyers' time to detailed reviews.

3) **Meeting on Feb 14th:** Will be at the NESCOE office in Westborough office. Directions attached. We have 22 chairs, which would accommodate those at the last meeting, but not many more. We can provide lunch.

4) **NEPOOL Meeting/call Feb 7th:** Earlier, NEPOOL did not intend to have the NESCOE letter to ISO on the February PC agenda because in large part I said there is not much I could offer beyond what is in the letter at this time. NEPOOL officers decided today to have me present the letter quickly before Gordon's CEO Report. I am sure a few stakeholders will say the things we've already seen in the press. All fine, as I will reply and it will turn to a little bit of a talk about process, with assurances that we and ISO will seek NEPOOL input. They apparently want this t-up because they want to ask Gordon about ISO's view/intent. Some read ISO's comments in the paper last week as ISO having made its mind up. State officials on this email do not normally participate in NEPOOL. Unless you are all ready to say more about where you are headed, it would seem best not to now. That would elevate beyond a t-up and invite a million more questions. I am able to stick to the four corners of the letter and everyone expects that.
