**Subject:** contact info for conversation with regional group

Cynthia:

The group in NE discussion the possibility of a regional approach to increasing pipeline capacity is looking for an opportunity to discuss some funding options with the various pipeline companies. In very broad outline, the approach would involve the use of the ISO-NE tariff as a funding source. Could you let me know who the right people at PNGTS and TransCanada would be for such a conversation? I envision one or two phone calls at this point, and am not sure (in light of the holidays) exactly what our schedule would be, but we are looking for something relatively soon. Thanks.  
Hope you have a great holiday.
