Terminal Manager  
ExxonMobil  
52 Beacham Street  
Everett, MA 02149

Dear Neighbor:

We, the undersigned residents, city officials, and organizations, are writing to request that ExxonMobil provide us with information that will help our organizations and members to more fully understand what ExxonMobil is doing, if anything, to prepare its Everett facility for the impacts of climate change.

We live in Everett, Chelsea, East Boston and adjacent communities and are deeply concerned with potential impacts from the Everett Terminal along the Mystic River should a hurricane, super storm Sandy or other significant weather event happen in the Greater Boston area.

As proximate neighbors to your facility, we want to know if Exxon has an evacuation plan, a plan to address the impacts of petroleum products flowing into our rivers and neighborhoods and how Exxon will communicate these measures to residents of our communities.

As you are aware and have admitted in your own communications, our climate is already changing. Exxon's Everett facility, and our communities, will be on the front lines as sea levels rise and storms increase in frequency and intensity. A spill from your facility – which will be caused by an intense rain event and/or by storm surges washing over your property – would have catastrophic effects on our watershed and our communities.

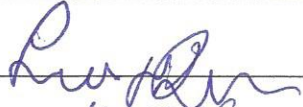

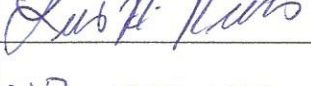

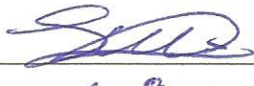

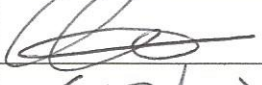

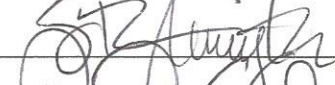

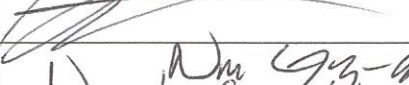

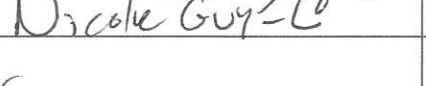

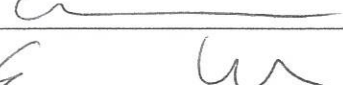

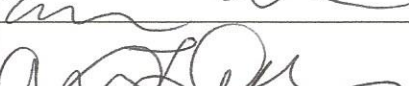

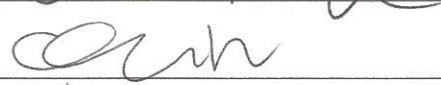

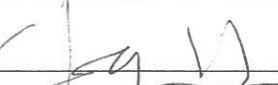

In order to ensure that our communities are protected from this risk, we would like to establish an open dialogue between our organizations and your company to share information about climate preparedness. The following information, which we are requesting you provide, will allow us to more fully understand the threat posed by the Everett facility and what Exxon is doing to minimize it.

- Exxon's Facility Response Plan and all attachments and exhibits in a non-redacted form
- Exxon's Spill Prevention, Control and Countermeasures Plan and all attachments and exhibits in a non-redacted form
- Exxon's Stormwater Pollution Prevention Plan and all attachments and exhibits in a non-redacted form
- Engineered site plans for the past 10 years
- Any and all documents showing how the facility is responding to climate change impacts, including storm surges.

We welcome further discussion about this information specifically, or about preparing for the effects of climate change more generally. GreenRoots Inc., together with its partners in East Boston, organizes a business roundtable discussion that occurs on a quarterly basis. Please let us know if you are interested in participating in that and other processes to be more accountable to your neighbors.

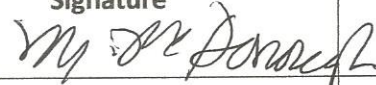

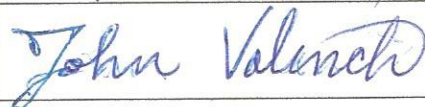

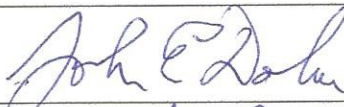

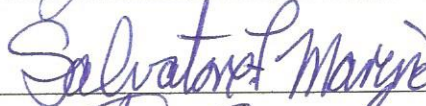

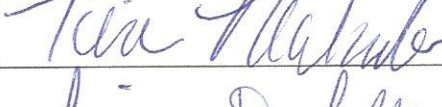

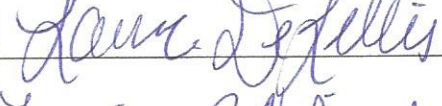

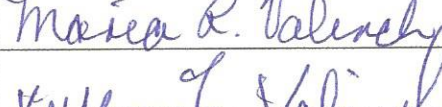

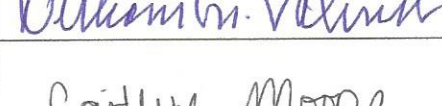

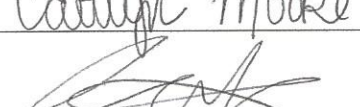

Thank you for considering our request, and we look forward to your response. Please direct any communication to GreenRoots Inc. 227 Marginal Street Suite 1 Chelsea MA, 02150 or to [RoseannB@GreenRootsChelsea.org](mailto:RoseannB@GreenRootsChelsea.org).

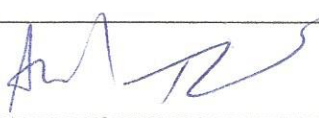

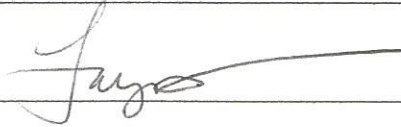

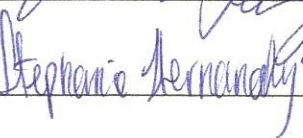

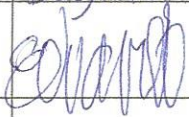

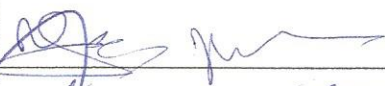

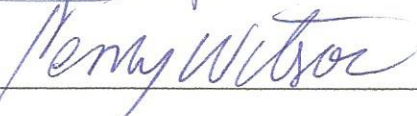

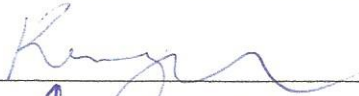

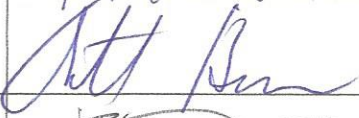

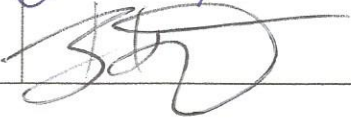

Very Truly Yours,
